Marine Accident Investigators'
International Forum

INTERNATIONAL MARITIME ORGANIZATION STRATEGY DOCUMENT

Maritime Safety Through Investigation and Cooperation

THE MARINE ACCIDENT INVESTIGATORS' INTERNATIONAL FORUM (MAIIF)

1. The Marine Accident Investigators' International Forum (MAIIF) is an international non-profit organization dedicated to the advancement of maritime safety and to the prevention of marine pollution through the exchange of ideas, experiences and information acquired in marine accident investigation. Its purpose is to promote and improve marine accident investigation, and to foster international cooperation and communication between marine accident investigators.
2. MAIIF was inaugurated in June 1992 at a meeting of representatives from 17 participating administrations all of whom had a desire to further maritime safety through proper investigation and cooperation with one another.
3. Currently, the membership numbers over 50 marine safety investigating authorities. The objectives of MAIIF are:
 - a. To foster, develop and sustain a cooperative relationship among national marine investigators for the purpose of improving and sharing of knowledge in an international forum.
 - b. To improve maritime safety and the prevention of pollution through the dissemination of information gained in the investigative process.
 - c. To encourage through cooperation the development, recognition, implementation and improvement of related international instruments, where appropriate.
4. MAIIF members are guided by the principles of IMO Resolution MSC.255(84): The Code of the International Standards and Recommended Practices for a Safety Investigation into a Marine Casualty or Marine Incident (Casualty Investigation Code) and IMO Resolution LEG.3(91): Guidelines on fair treatment of seafarers in the event of a maritime accident.
5. To this end, members meet annually in regional groups and at the main international forum. It is at these MAIIF meetings that they are able to discuss matters of a mutual interest. Above all, these meetings provide an opportunity for networking and for putting 'faces to names', and as a result, the spirit of cooperation between investigators, particularly with regard to the conduct of joint investigations has been greatly improved.
6. The MAIIF Charter sets out the intent, purpose and rules for the membership of MAIIF and for the conduct of MAIIF meetings.
7. Membership of MAIIF is open to national marine safety investigating authorities, subject to the payment of an annual subscription.

THE INTERNATIONAL MARITIME ORGANIZATION (IMO)

8. The Convention establishing the International Maritime Organization (IMO) was adopted in Geneva in 1948 and IMO first met in 1959. The IMO's main task has been to develop and maintain a comprehensive regulatory framework for shipping and its remit today includes safety, environmental concerns, legal matters, technical co-operation, maritime security and the efficiency of shipping.
9. A specialized agency of the United Nations with 172 Member States and three Associate Members, IMO is based in the United Kingdom with around 300 international staff.
10. IMO's specialized committees and sub-committees are the focus for the technical work to update existing legislation or develop and adopt new regulations, with meetings attended by maritime experts from Member Governments, together with those from interested intergovernmental and non-governmental organizations.
11. The result is a comprehensive body of international conventions, supported by hundreds of recommendations governing every facet of shipping. These include:

- a. Measures aimed at the prevention of accidents, including standards for ship design, construction, equipment, operation and manning - key treaties include SOLAS, the MARPOL Convention for the prevention of pollution by ships and the STCW Convention on standards of training for seafarers.
 - b. Measures which recognize that accidents do happen, including rules concerning distress and safety communications, the International Convention on Search and Rescue and the International Convention on Oil Pollution Preparedness, Response and Co-operation.
 - c. Conventions which establish compensation and liability regimes - including the International Convention on Civil Liability for Oil Pollution Damage, the convention establishing the International Fund for Compensation for Oil Pollution Damage and the Athens Convention covering liability and compensation for passengers at sea.
12. Inspection and monitoring of compliance are the responsibility of Member States, but the IMO's Member State Audit Scheme is expected to play a key role in enhancing implementation of IMO standards.
13. IMO has an extensive technical co-operation programme, which identifies needs among resource-shy Members and matches them to assistance, such as training. IMO has founded three advanced level maritime educational institutes in Malmö, Malta and Genoa.

IMO's mission statement is: "The mission of the International Maritime Organization (IMO), as a United Nations specialized agency, is to promote safe, secure, environmentally sound, efficient and sustainable shipping through cooperation. This will be accomplished by adopting the highest practicable standards of maritime safety and security, efficiency of navigation and prevention and control of pollution from ships, as well as through consideration of the related legal matters and effective implementation of IMO instruments, with a view to their universal and uniform application."

14. The Organization consists of an Assembly, a Council and five main Committees: the Maritime Safety Committee; the Marine Environment Protection Committee; the Legal Committee; the Technical Co-operation Committee and the Facilitation Committee and a number of Sub-Committees support the work of the main technical committees.

Assembly

15. This is the highest governing body of the Organization. It consists of all Member States and it meets once every two years in regular sessions, but may also meet in an extraordinary session if necessary. The Assembly is responsible for approving the work programme, voting the budget and determining the financial arrangements of the Organization. The Assembly also elects the Council.

Council

16. The Council is elected by the Assembly for two-year terms beginning after each regular session of the Assembly.
17. The Council is the executive organ of IMO and is responsible, under the Assembly, for supervising the work of the Organization. Between sessions of the Assembly the Council performs all the functions of the Assembly, except the function of making recommendations to Governments on maritime safety and pollution prevention which is reserved for the Assembly by Article 15(j) of the Convention.

18. Other functions of the Council are to:

- a. Coordinate the activities of the organs of the Organization;
- b. Consider the draft work programme and budget estimates of the Organization and submit them to the Assembly;
- c. Receive reports and proposals of the Committees and other organs and submit them to the Assembly and Member States, with comments and recommendations as appropriate;
- d. Appoint the Secretary-General, subject to the approval of the Assembly;
- e. Enter into agreements or arrangements concerning the relationship of the Organization with other organizations, subject to approval by the Assembly.

19. Council normally meets bi-annually, in June and December.

Maritime Safety Committee (MSC)

20. The MSC is the highest technical body of the Organization. It consists of all Member States. The functions of the Maritime Safety Committee are to "consider any matter within the scope of the Organization concerned with aids to navigation, construction and equipment of vessels, manning from a safety standpoint, rules for the prevention of collisions, handling of dangerous cargoes, maritime safety procedures and requirements, hydrographic information, log-books and navigational records, marine casualty investigations, salvage and rescue and any other matters directly affecting maritime safety".

21. The Committee is also required to provide machinery for performing any duties assigned to it by the IMO Convention or any duty within its scope of work which may be assigned to it by or under any international instrument and accepted by the Organization. It also has the responsibility for considering and submitting recommendations and guidelines on safety for possible adoption by the Assembly.

22. The expanded MSC adopts amendments to conventions such as SOLAS and includes all Member States as well as those countries which are Party to conventions such as SOLAS even if they are not IMO Member States.

23. The MSC normally meets annually, in May/June.

The Marine Environment Protection Committee (MEPC)

24. The MEPC, which consists of all Member States, is empowered to consider any matter within the scope of the Organization concerned with prevention and control of pollution from ships. In particular it is concerned with the adoption and amendment of conventions and other regulations and measures to ensure their enforcement.

25. The MEPC was first established as a subsidiary body of the Assembly and raised to full constitutional status in 1985.

26. MEPC normally meets annually, in July.

Sub-Committees

27. The MSC and MEPC are assisted in their work by a number of Sub-Committees which are also open to all Member States:

- a. Sub-Committee on Human Element, Training and Watchkeeping (HTW);
- b. Sub-Committee on Implementation of IMO Instruments (III);
- c. Sub-Committee on Navigation, Communications and Search and Rescue (NCSR);

- d. Sub-Committee on Pollution Prevention and Response (PPR);
- e. Sub-Committee on Ship Design and Construction (SDC);
- f. Sub-Committee on Ship Systems and Equipment (SSE); and
- g. Sub-Committee on Carriage of Cargoes and Containers (CCC).

Legal Committee

- 28. The Legal Committee is empowered to deal with any legal matters within the scope of the Organization. The Committee consists of all Member States of IMO. It was established in 1967 as a subsidiary body to deal with legal questions which arose in the aftermath of the Torrey Canyon disaster.
- 29. The Legal Committee is also empowered to perform any duties within its scope which may be assigned by or under any other international instrument and accepted by the Organization.
- 30. The Legal Committee normally meets annually, in October.

Technical Co-operation Committee

- 31. The Technical Co-operation Committee is required to consider any matter within the scope of the Organization concerned with the implementation of technical co-operation projects for which the Organization acts as the executing or co-operating agency and any other matters related to the Organization's activities in the technical co-operation field.
- 32. The Technical Co-operation Committee consists of all Member States of IMO, was established in 1969 as a subsidiary body of the Council, and was institutionalized by means of an amendment to the IMO Convention which entered into force in 1984.
- 33. The Technical Co-operation Committee normally meets annually, in June.

Facilitation Committee

- 34. The Facilitation Committee was established as a subsidiary body of the Council in May 1972, and became fully institutionalised in December 2008 as a result of an amendment to the IMO Convention. It consists of all the Member States of the Organization and deals with IMO's work in eliminating unnecessary formalities and "red tape" in international shipping by implementing all aspects of the Convention on Facilitation of International Maritime Traffic 1965 and any matter within the scope of the Organization concerned with the facilitation of international maritime traffic. In particular in recent years the Committee's work, in accordance with the wishes of the Assembly, has been to ensure that the right balance is struck between maritime security and the facilitation of international maritime trade.
- 35. The Facilitation Committee normally meets annually, in January.

IMO Secretariat

- 36. The IMO Secretariat consists of the Secretary-General and nearly 300 personnel based at the headquarters of the Organization in London.
- 37. The current Secretary-General of the Organization, Mr. Kitack Lim of the Republic of Korea, was appointed to the position as of 1 January 2016.

Member States

38. IMO currently has 172 Member States and three Associate members.

NON-GOVERNMENTAL ORGANIZATIONS (NGOS)

39. International non-governmental organizations that have the capability to make a substantial contribution to the work of IMO may be granted consultative status by the Council with the approval of the Assembly.

40. Any organization seeking consultative status with IMO has to demonstrate considerable expertise as well as the capacity to contribute, within its field of competence, to the work of IMO. It must also show that it has no means of access to the work of IMO through other organizations already in consultative status and that it is "truly international" in its membership, namely that it has a range of members covering a broad geographical scope and, usually, more than one region.

41. To date, there are 79 international non-governmental organizations in consultative status with IMO.

INTERGOVERNMENTAL ORGANIZATIONS (IGOs)

42. IMO may enter into agreements of co-operation with other intergovernmental organizations on matters of common interest with a view to ensuring maximum co-ordination in respect of such matters.

43. To date, there are 64 intergovernmental organizations which have signed agreements of co-operation with IMO.

MAIIF AND THE INTERNATIONAL MARITIME ORGANIZATION (IMO)

44. An Agreement of Cooperation (annexed to this document) between the Secretary-General of IMO and the Chair of MAIIF was signed, in February 2010, through which MAIIF is accorded the status of an Intergovernmental Organization (IGO).

45. Within the terms of this Agreement of Cooperation:

- a. The Secretary-General of IMO and the Chair of MAIIF will consult each other, on matters of common interest to both, with a view to ensuring maximum coordination of their work and activities in respect of such matters.
- b. The Secretary-General of IMO and the Chair of MAIIF will exchange information and keep each other informed of projected activities and programmes of work in fields of common interest. Accordingly, when either entity proposes to initiate a programme or an activity on a subject in which the other has or may have a substantial interest, consultation will be initiated between the two with a view to harmonizing their efforts, as far as possible, taking into account their respective responsibilities and any decisions or wishes of the appropriate governing bodies of the respective entities.
- c. The Secretary-General of IMO will invite the Chair of MAIIF to send representatives to observe meetings or conferences convened by or under the auspices of IMO to consider matters in which MAIIF has an interest, in accordance with the procedures applicable to each meeting or conference.
- d. The Chair of MAIIF will invite the Secretary-General of IMO to send observers to meetings or conferences convened by or under the auspices of MAIIF to consider matters in which IMO has an interest, in accordance with the procedures applicable to each meeting or conference.
- e. The Secretary-General of IMO and the Chair of MAIIF may consult, where appropriate, on the use of personnel, material, services, equipment and facilities for joint undertakings which

may be agreed between them in fields of common interest to IMO and MAIIF.

- f. IMO shall, at the request of MAIIF, render assistance to MAIIF with respect to matters within the scope of activities of MAIIF; and MAIIF shall, at the request of IMO, render assistance to IMO in matters falling within the scope of IMO activities.

46. MAIIF will bring to the IMO a wealth of technical experience from an international body of accident investigators, which can only further its purpose to promote and improve marine accident investigation and foster international cooperation and communication between marine accident investigators.

MAIIF REPRESENTATION AT THE IMO

47. To enable MAIIF to function effectively at IMO, MAIIF representation at Committees and Sub-Committees might include, but not be limited to:

- a. Maritime Safety Committee (MSC);
- b. Maritime Environmental Protection Committee (MEPC);
- c. Sub-Committee on Human Element, Training and Watchkeeping (HTW);
- d. Sub-Committee on Implementation of IMO Instruments (III);
- e. Sub-Committee on Navigation, Communications and Search and Rescue (NCSR).

48. This does not preclude MAIIF representation at Assembly or Council meetings, at the invitation of the Secretary General, or at other Sub-Committee meetings, at the invitation of their respective Sub-Committee Chairmen.

49. The MAIIF Secretariat is to be the conduit through which all correspondence from or to the IMO secretariat, Committees or Sub-Committees is transmitted. This includes any submissions to Committees or Sub-Committees.

50. If there are issues for which the IMO Secretariat or any Committees or Sub-Committees require a MAIIF response, such response is to be drafted by the MAIIF Secretariat, in conjunction with the officers of MAIIF (Chair, Deputy Chair and Assistant Chairs), and then communicated by e-mail to all MAIIF members for comment. If no comment is received after 14 days, the MAIIF Secretariat will assume concurrence and submit the response to the IMO.

51. It is important that MAIIF be proactive in submitting papers to IMO, and that time is set aside at annual MAIIF meetings, and at annual regional meetings, to discuss and agree any on matters for which MAIIF can contribute to the business of IMO Committees and Sub-Committees. To assist in this process, the MAIIF Secretariat will provide as much background information as possible, in good time, before every meeting. It is inevitable that some matters may arise between these annual meetings, which may require action before the next meeting. In this event, the procedure outlined at Article 55 will apply.

52. The consultative status of MAIIF as an IGO precludes it from proposing any work programme items to the IMO, unless it is jointly supported by an IMO Member State.

53. It may not always be appropriate for the MAIIF General Secretary to partake in discussions of a technical nature at some IMO Committees and Sub-Committees; nor will it always be possible for the MAIIF General Secretary to attend at all sessions of said Committees and Sub-

Committees. On these occasions, the MAIIF Secretariat will seek the assistance of MAIIF Members or a MAIIF Technical Officer (who shall be appropriately qualified for the role for which he/she is employed) for the preparation of papers for submission to the IMO, and to represent MAIIF as appropriate at IMO Committees and Sub-Committees. To this end, the MAIIF Secretary will call for assistance in sufficient time to allow for the drafting and timely submission of any papers.

54. Representatives of MAIIF member authorities wishing to participate at IMO Committees and Sub-Committees on behalf of MAIIF should declare so to the MAIIF Secretariat at least two months before the meeting, in order for the MAIIF Chair and the Secretariat to agree, and submit, the names of the MAIIF delegation for registration at the IMO. In this event, arrangements are to be made for a coordination meeting in order for the MAIIF delegation to agree a strategy for participating in Plenary, Working Groups or Drafting Groups.
55. MAIIF's limited funding precludes the payment of fees to representatives of MAIIF member authorities for assisting in the preparation of papers or for attending meetings. Reasonable claims for travel and subsistence for attending meetings will be reimbursed by the MAIIF Treasurer, when previously approved in principle by the Chair, for economy class airfare and the current rate for lodging and subsistence as would be authorized by the representative's employing authority for official travel to the meeting location.

POLICY v TECHNICAL ISSUES

56. When making any submissions to the IMO, MAIIF will do so on behalf of an international body of representatives of national marine safety investigating authorities, rather than their associated Administration or Agency.
57. MAIIF, therefore, can only comment on technical issues appertaining to the processes of accident investigation, accident analysis, safety issues resulting from accident investigations, or providing statistical information on accident trends.
58. MAIIF cannot be involved in any issues relating to matters of policy, such as the development of international conventions, regulations or standards, other than those standards that relate to the processes of accident investigation or accident analysis.
59. MAIIF can, however, assist in the development of Guidelines relevant to the processes of accident investigation or accident analysis, all in the interests of improving safety at sea.

Conversely, the Chairman of MAIIF will invite the Secretary-General of IMO to send observers to meetings or conferences convened by or under the auspices of MAIIF to consider matters in which IMO has an interest, in accordance with the procedures applicable to each meeting or conference.

4 The Secretary-General of IMO and the Chairman of MAIIF may consult, where appropriate, on the use of personnel, material, services, equipment and facilities for joint undertakings which may be agreed between them in fields of common interest to IMO and MAIIF.

5 IMO shall, at the request of MAIIF, render assistance to MAIIF with respect to matters within the scope of activities of MAIIF; and MAIIF shall, at the request of IMO, render assistance to IMO in matters falling within the scope of IMO's activities. Where assistance, which is required by either party under the terms of this Agreement, involves substantial expenditure, consultation will take place with a view to determining the most equitable manner for meeting such expenditure.

6 It is further agreed that nothing in this Agreement shall bind any of the Member States of MAIIF jointly or severally. Similarly, the Agreement shall not bind any of the Member States of IMO jointly or severally.

7 This Agreement shall be subject to revision by agreement between the Secretary-General of IMO and the Chairman of MAIIF.

8 The Secretary-General of IMO and the Chairman of MAIIF may terminate this Agreement by giving six months written notice to the other party.

9 This Agreement shall come into force on its approval by the Assembly of IMO and MAIIF.
